Tech: Thank you for calling Blendtec. May name is Kate, how may I help you?

Customer: Yes, we had bought a couple of the Blendtecs from Costco, and then you guys had a recall on them back in January.

Tech: Okay, that probably would have been a different machine. We haven't had any recalls. What kind of machine is it?

Customer: Well, it was the, the portable Blendtec [UNINTELLIGIBLE].

Tech: Okay, the BlendJet? Okay that is the BlendJet, and that is a totally different company. I'm happy to give you their number I've gotten off their website.
